Q17-19. Read the following passage carefully and answer the questions given below it:-

2

Recently, a newspaper article mourned the total disappearance of the common house sparrow. This was a comment on the city's perceptible move towards edging out the flora and fauna of the city. In the rapid urbanization, multi-storied apartments grew and large scale felling of trees became necessary. Last week, however, seven pairs of these sparrows were spotted in a suburb. Possibly the greenery of this place has created a new habitat for these birds which like their proximity to human beings, and have made a comeback. A systematic development of trees and shrubs all over the city could woo the absentee house sparrow to our midst.

Q17. According to the passage, the birds have made a comeback to the suburb because they

- (a) have been hunted down by the village people
- (b) Love to be amidst human beings
- (c) get food only where human beings live
- (d) they have been deliberately brought back by biologists

Q18. In the passage the term "urbanisation" has been used to refer to

- (a) the destruction of the greenery in the city
- (b) construction of concrete structures on a large scale
- (c) a change over from the rural life to the city life
- (d) the movement of people from villages to cities
- Q19. The phrase "absentee house sparrow" refers to
 - (a) the sparrow that makes infrequent visits
 - (b) the sparrow that has forgotten its habitat
 - (c) the sparrow that has gone away from the urban areas
 - (d) the sparrow that has become extinct

Q20-25 Select the most appropriate word from the options against each number:-

Watermelons ...(20)... to India by the 4th century A.D. Sushruta, the great Indian physician,(21)...wrote Sushruta Samhit, mentions that watermelons were grown ...(22)... the banks of the river Indus.(23)....are also mentioned in ancient books. Sushruta calls it as Kalinda or Kalinga (hence Kalingad in Marathi). It was...(24)..to China in the 10th or 11th century and ...(25)... it is grown throughout the tropics.

	•							
Q20.	(a)	came	(b)	go	(c)	arrived	(d)	started
Q21.	(a)	did	(b)	when	(c)	certainly	(d)	who
Q22.	(a)	above	(b)	outside	(c)	from	(d)	along
Q23.	(a)	it	(b)	they	(c)	some	(d)	that
Q24.	(a)	took	(b)	gave	(c)	taken	(d)	take
Q25.	(a)	also	(b)	though	(c)	now	(d)	tomorrow

Q26-29. Which word or words explains the meaning of the following idioms:-

- (a) Expose
- (c) Destroy
- Q27. A wolf in sheep's clothing
 - (a) A hypocrite
 - (c) A coward

Q28. A blue stocking

- (a) Stocking which is blue in colour
- (c) An unreliable person
- Q29. Yeoman's service
 - (a) lip-service
 - (c) to play god father

(b) Take off all clothes

ro

- (d) Exploit
- (b) A wolf in woolen clothes
- (d) A proud man
- (b) A clean cheat
- (d) a woman having literary tastes and learning
- (b) to serve like a slave
- (d) efficient or useful help

Q71-75. In each of the following questions, select a figure from amongst the four alternatives, which when placed in the blank space of figure (X) would complete the pattern.

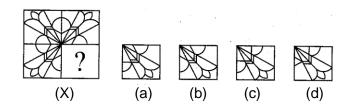

Q71.

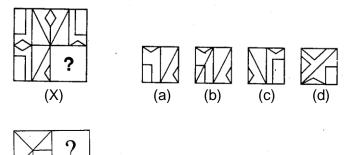

Q72.

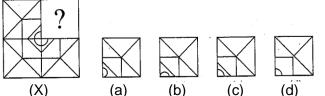

Q73.

Q74.

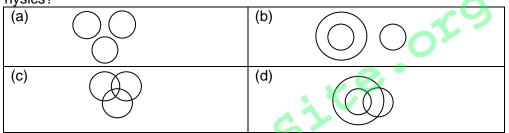

Q75.

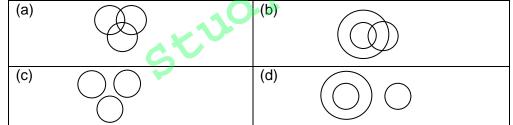

Q 76-80. Each of these questions given below contains three elements. These elements may or may not have some inter-linkage. Each group of elements may fit into one of these diagrams at (a), (b), (c) or (d). You have to indicate the group of elements which correctly fits into the diagrams.

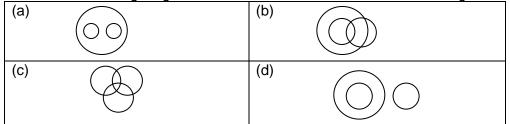

Q76. Which of the following diagrams indicates the best relation between Biology, Zoology and Physics?

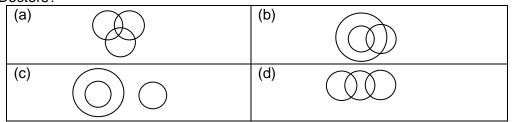

Q77. Which of the following diagrams indicates the best relation between Stamp, Pen and Chalk?

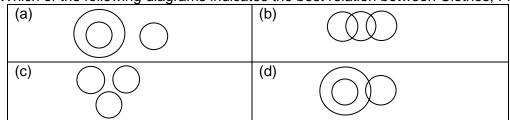

Q78. Which of the following diagrams indicates the best relation between Singers, Athletes and Girls?

Q79. Which of the following diagrams indicates the best relation between Teachers, Women and Doctors?

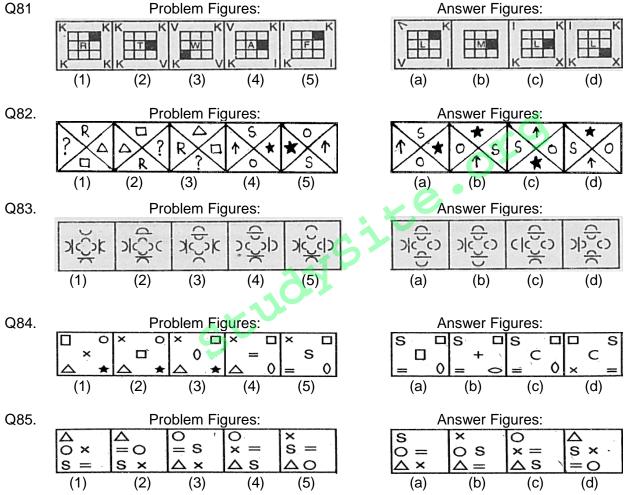

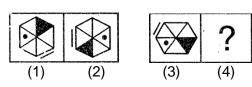

7

Q81-85. Each of the following questions consists of five figures marked 1,2,3,4 and 5 called the Problem Figures followed by four other figures marked a, b, c and d called the Answer Figures. Select a figure from amongst the Answer Figures which will continue the same series as established by the five Problem Figures.

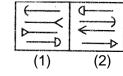

Q86-90. Each of the following questions consists of two sets of figures. Figures 1, 2, 3 and 4 constitute the Problem Set while figures a, b, c and d constitute the Answer Set. There is a definite relationship between figures (1) and (2). Establish a similar relationship between figures (3) and (4) by selecting a suitable figure from the Answer set that would replace the question mark (?) in fig (4).
